Dear reader,

Our age is characterised by technological developments and social change. The increasing pressure to perform, the rigid dictates of our schedules and other stress factors trigger an unconscious feeling of helplessness in many of us. In Austria’s richly-varied areas where nature and culture thrive, we can succeed in transforming that sense of estrangement through the natural rhythm of the landscape and through our own rhythm of life, and rediscover our own pace of being. On your travels, allow yourself time for these encounters. And, not least, for meeting up with yourself again.

Best wishes,

Petra Stolba
Managing Director, Austrian National Tourist Office

Salzburg’s harmonious blend of scenic landscapes and architecture, art and culture, traditional and modern facets make the city stand out as a premium destination. Salzburg is small, but esthetic and sophisticated. The narrow streets, listed landmark buildings and magnificent squares mark one side of this UNESCO-listed baroque town. But there is also extravagant architecture, spectacular works of art, contemporary design, and exclusive shopping to be discovered and enjoyed. The city owes much of its elegance and uniqueness to the prince-archbishops, their architectural and artistic legacy encountered around practically every corner.

The surrounding nature plays another big role in Salzburg’s identity and the combination of both make for palaces in beautiful gardens and unique views on the Old Town’s church towers from the city mountains. Salzburg is a metropolis of music, being the birthplace of W. A. Mozart and the home of “The Sound of Music”. In preparation for the Centennial of the Salzburg Festival in 2020, some of Salzburg’s many premium hotels are renovated and museums, galleries and world-famous stages are putting together a high-end program for friends of music, art and culture.

KOENIGSSEE – A MIRACLE OF EUROPE
A half-hour’s finished is the Lake of the Kings („Königssee“). The shores are lined with lawns and trees, the air is fresh and pure. A little village stands in the valley of the Pramser river, Pramsplatz. The romantic village will stop you from continuing your journey. It is the last village in the valley, and it seems like a fairy tale. We spent the night here, in the Hotel Der Alte Kämmerer, a charming old guesthouse.

The small village is famous for its ferry service. But the ferry is not the only attraction. The lake is also well known for its gondola service. The gondola service is a great way to explore the lake and enjoy the beautiful scenery. The gondolas are decorated with flowers and other decorations, and they are powered by a team of rowers.

The village of Pramsplatz also has a few other attractions. The Pramser Church is a beautiful little church, and the Pramser Castle is a historical building. The castle was once a fortress, and it now serves as a museum. The Castle Park is a lovely garden, and it is a great place to relax.

The Pramser Lake is a beautiful place to visit, and it is definitely worth a visit. It is a great place to explore the natural beauty of the area, and it is also a great place to relax and enjoy the peace and quiet. The village of Pramsplatz is a charming little village, and it is definitely worth a visit. It is a great place to explore, and it is also a great place to relax and enjoy the peace and quiet.
GROSSGLOCKNER

Grossglockner High Alpine Road Mountains of recovery and the highest level of relaxation

CURVE AFTER CURVE AN UPLIFTING FEELING!
Almost 90 years ago, engineer Franz Wallack planned and constructed the Grossglockner High Alpine Road. And with a lot of feeling! Because every one of the total of 48 kilometers of road, each of the total of 36 hairpin bends, each ascent and descent are well thought out and created in harmony with the mountains. Even today, the Grossglockner High Alpine Road, this protected masterpiece of road construction art, which blends seamlessly into the natural landscape, makes the hearts of pleasure drivers race.

PROMISING MOMENTS WITH A BROAD PERSPECTIVE
On the way up along the Grossglockner High Alpine Road, there are wonderful views of majestic three-thousand meter peaks, exciting educational and panoramic trails and numerous places to stop, pause and let your mind wander. The highest point on the mountain road – and probably the one with the most far-reaching view – is the Edelweiss peak, which is just over 2,500 meters above sea level. From this 360-degree viewpoint, the view sweeps freely over more than 30 three-thousand meter peaks – and even the north flank of the Grossglockner can be seen from here. But of course the most impressive view of all is the view of the Grossglockner.

With its 3,798 meters, this striking mountain towers over the entire region and is the highest peak in Austria. A moment that remains etched in your memory.

ONE NIGHT IN THE MOUNTAIN HUT – DECELERATION INCLUDED
An experience of deceleration can be enjoyed by spending the night in a hut in the high mountains around the Grossglockner High Alpine Road. When the sun has set deep red behind the mountains, silence settles over the three thousand meter peaks around the Glockner. The sky shines under the stars and the moon. The sounds of the night ring out: the call of the eagle owl, the wind whistling over the mountain flanks, the ringing of cowbells. This is pure deceleration!

النمسا، المكان المثالي للاسترخاء والتأمل.

إن التطورات التكنولوجية والتغييرات الاجتماعية هي السمات التي تميز عصرنا الراهن. فضغوط الأداء المتزايدة وما تملبه علينا جداول العمل الكبيرة من التزامات وغيرها من عوامل الضغط الأخرى، تؤدي بالكثير منا إلى الشعور بالعجز. ولكن عند التواجد في مناطق النمسا الفنية بالتنوع حيث تزهو الطبيعة والثقافة، يمكننا التجاوز في تغيير ذلك الشعور الغريب عبر تتبع إيقاع الطبيعة المحيطة بنا عبر أrencاتنا الخاص، وإعادة اكتشاف وتيرة حياتنا من جديد. لذا، أمنح نفسك وقتاً لتخريج هذه اللحظات أثناء سفرك، لننسى ما أساليبنا مع نفسك من جديد.

مع أفضل التمنيات
